FABRICATE

Shingora offers a spectacular range of products that are the result of a balance between traditional Indian designs—adapted to suit contemporary tastes—and colours that lend an international touch. This luxurious label offers an array of beautiful throws and cushions to match every setting seamlessly. Each piece is curated and developed by their in-house team, who ensure the products' quality. Having made their mark in home decor, the brand has also launched an e-commerce portal. (shingora.net)

SINK IN

Sternhagen is a premium sanitaryware brand, which balances functionality with aesthetics. The 'Düne' washbasin (*pictured below*), with its arresting relief, attempts to mirror a section of the Earth. Its surface has been precisely calculated to match natural ripples—on rock shaped by water, or sand dunes shaped by wind. This ensures that water flows effortlessly towards the drain. The soft, matte Sani-Q surface of the basin is both easy to clean and antibacterial, while its quartz material makes it durable and sturdy. (sternhagen.com)

LUXE ESSENTIALS

Established in 2010, LOCO Design's services encompass furniture, accents, accessories and custom design solutions. They operate through three design sub-brands: Pintark for advanced surface treatments; Madheke for luxury furniture and accents; and Taamaa for accessories, gifting and packaging solutions. The 'Papier' sideboard (*pictured above*) has been designed with a focused palette of materials and a play on form to create an elegant product that reflects their clean design principles. CINEMA PARADISO

Based in Bengaluru, Karlsson is a boutique luxury leather-product manufacturer with the singular objective of producing high quality pieces from the finest European leather. From recliners for home theatres to living room sofas, every product is built to order. Their craftsmen can customize each piece to complement a specific interior, and reflect the buyer's taste. Karlsson is known for its luxurious entertainment seating for home theatres. Features like temperature-controlled drink holders, touch-sensitive reading lights, storage consoles and USB phone chargers ensure an unparalleled home theatre experience. (karlssonleather.in)
